

Coota Gulla Preschool - Take Home Learning Pack

Term 3, Week 8

Dear families,

Please find the learning from home work for this week attached. Children can complete the activities more than once if they would like to.

If you can, we ask that you send a photo/video of the work your child has completed. All photos/videos can be uploaded in your child's portfolio or sent via ClassDojo messages.

Taking photos of the tasks your child completes, allows us to see all the wonderful learning that the children are doing as well as allowing us to see which children are learning from home so that we can mark the roll.

Happy learning!

COOTA GULLA PRESCHOOL ACTIVITY GRID

TERM 3 WEEK 8

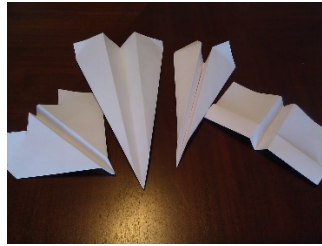

Obstacle course

Using various items at home create a fun and challenging obstacle course you and your family can complete.

Paper plane challenge

Make a paper aeroplane and see how far you can fly it.

Building challenge

Using lego or blocks build a tower as tall as yourself.

Artistic artwork

Using your creativity create your own MASTERPIECE you can paint or draw.

Number of the Day!

2

Show 2 things you like to play with.

Take a photo or record and post it to class dojo.

Vocabulary:

“Fun”

Draw a picture of an item or person that you can have fun with.

Take a photo and upload it to class dojo.

Practice writing your name and numbers.

Creative outfits

Using your creativity design an outfit for you to wear, create your best outfit or play dress ups.

Singing:

'If you're happy and you know it'

COOTA GULLA PRESCHOOL ADDITIONAL HOME ACTIVITIES to choose from and complete with your children		TERM 3 WEEK 8
Dance	Yoga	Go for walk
Ride your bike or scooter	Draw a picture using chalk	Play a game
Play with your toys	Read a book with a family member	Help prepare the table
Watch a movie	Sing	Play a sport
Complete a task on Reading Eggs	Fitness	Balloon toss and catch

Build a Cubby House

Cubbyhouses are a great way for children to enjoy imaginative play and role play. For example, a simple cubbyhouse can turn into all sorts of places – a shop, hospital, school, castle and much more.

Also, making or building a simple cubbyhouse encourages children to think creatively and solve problems.

And a cubbyhouse can be a safe place for children to spend quiet time alone with their thoughts.

What you need to make a cubbyhouse

You can build a cubbyhouse using things around your home. Here are some ideas:

- Build a tent using chairs placed back to back, 1-2 metres apart, with a sheet or blanket hung over the top. You can use pillows to hold the edges to the floor so the cubbyhouse doesn't collapse.
- Hang a blanket over a table.
- Use a big cardboard box with holes cut out for doors and windows. Your child can paint or decorate it.

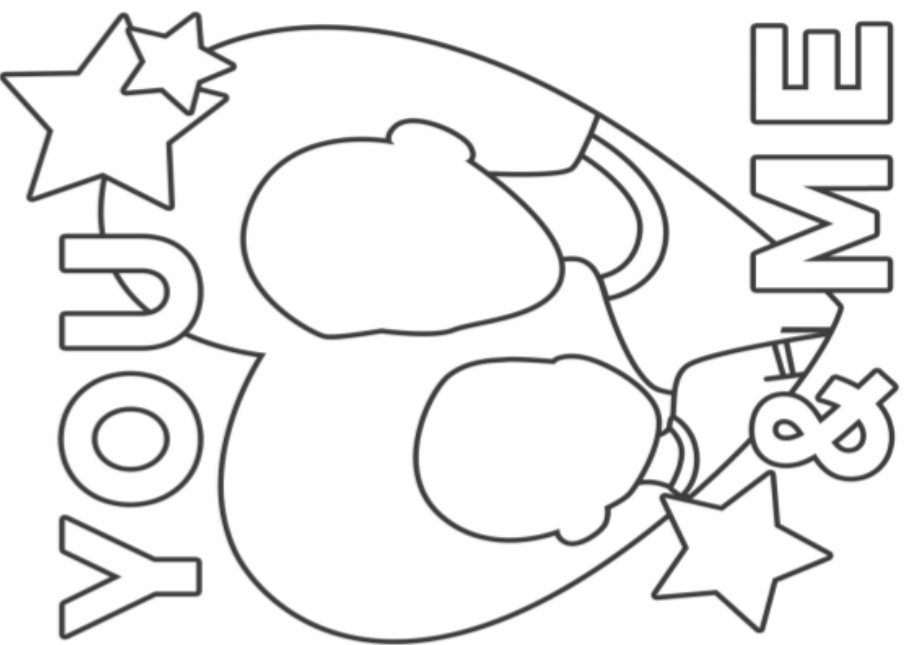

How to play with cubbyhouses

- Decide what sort of cubbyhouse to make and then build it with your child. Be led by your child's ideas. For example, ask your child where to put the cubbyhouse. Or if you're cutting out windows from a cardboard box, see whether your child can mark where they want the windows.
- When the cubbyhouse is ready, encourage your child to set it up the way they want it. Your child might like to bring some pillows, toys and books into the cubbyhouse.
- Encourage your child to make the cubbyhouse into an imaginary place, like a fort, ship, office and so on. You could help your child to find supplies and equipment from the toy box or the kitchen.
- Have fun together. A cubbyhouse is a good place for having imaginary adventures or sharing a quiet story.
- Give your child time to play in the cubbyhouse alone, if that's what they want. Some children really enjoy having a special private space that's just for them.
