

Coota Gulla Preschool - Take Home Learning Pack

Term 3, Week 6

Dear families,

Please find the learning from home work for this week attached. Children can complete the activities more than once if they would like to.

If you can, we ask that you send a photo/video of the work your child has completed. All photos/videos can be uploaded in your child's portfolio or sent via ClassDojo messages.

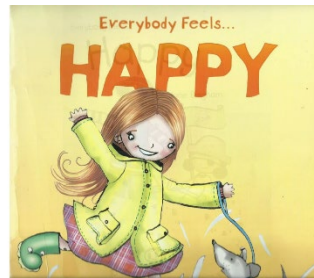

Taking photos of the tasks your child completes, allows us to see all the wonderful learning that the children are doing as well as allowing us to see which children are learning from home so that we can mark the roll.

Happy learning!

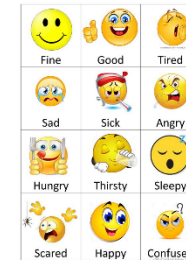

Show us your talent (singing, dancing, acting)

Listen to the story 'Everybody Feels Happy' by Jane Bingham on class dojo.

How do you feel today?

Take a photo of your drawing and upload it to class dojo.

Height

Pick two of your toys, which one is taller and which one is shorter?

Take a photo and upload to seesaw.

Number of the Day!

3

Find 3 items in your house, that you can not live without. Take a photo of the 3 items and post it to class dojo.

Vocabulary:

“Cheerful”

Draw a picture of something that makes you feel cheerful.

Take a photo and upload it to class dojo.

Practice writing your name and numbers.

Practice running

Singing:
Sing along to the story Months of the year on class dojo.

Sort your clothes by colour	15 frog jumps	Disco party
Complete a task on Reading Eggs	Write the alphabet	How many syllable/s in your name

How to make a cloud experiment:

What you will need:

- A jar with lid
- About 1/3 cup hot water (**make sure you have a parent/carer help you with this**)
- Ice
- Hairspray

Steps:

1. Start by pouring the hot water into the jar. Swirl it around a bit to warm up the sides of the jar.
2. Turn the lid upside down and place it on the top of the jar. Place several ice cubes onto the lid, and allow it to rest on the top of the jar for about 20 seconds.
3. Remove the lid, quickly spray a bit of hairspray into the jar, and then replace the lid with the ice still on top. Watch the cloud form.
4. When you see a good amount of condensation form, remove the lid and watch the “cloud” escape into the air.
